

SINGLE USE PLASTIC ORDINANCE

Effective January 1, 2025

As part of our commitment to a greener future, the Borough of West Conshohocken has adopted the Single-Use Plastic Regulations ordinance. This initiative encourages eco-friendly practices by reducing reliance on single-use carry out bags, plastic straws, utensils, and expanded polystyrene food service products.

We're promoting the use of sustainable alternatives and reusable products to help keep our Borough clean and environmentally conscious. Join us in the effort to create a lasting positive impact on our community.

NO SINGLE-USE PLASTICS

Straws

Bags

Cutlery
